Caring for your Human Hair Wrap Up

To wash your Wrap Up gently comb to remove tangles. A spray-on professional conditioner can be used prior to washing. Use a professional conditioning shampoo and warm water to gently work from the base to the ends. Do not scrub. Hold the Wrap Up and rinse well. Follow with conditioner and then rinse. Lay Wrap Up flat on a towel and gently roll to squeeze out excess moisture. Allow to air dry or use a hair dryer on a low setting. All thermal tools should be used on the lowest setting to avoid scorching the hair. Steam rollers are the safest way to curl your Wrap Up. It is recommended that only professional stylists cut or apply colour to your Wrap Up. Do not bleach.
